

complete engineering solutions

Pumori Corporation has been working in the metalworking market since 1990

Pumori offers equipment and tools made by the world's leading manufacturers. We officially represent a number of well-known brands

We have own production facilities; we manufacture high-quality turbine blades, clamping tools and metalworking machine tools

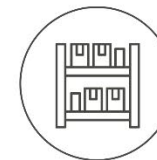

Pumori branches employ more than 500 people

PUMORI-NORTH-WEST

overview

Pumori-North-West (part of Pumori Corporation) is one of the leading companies in the north-west region of Russia in supplying metalworking equipment and tools.

For more than 15 years, the company has specialized in providing engineering services for industrial production, developing projects for modernization and technical re-equipment, as well as solutions of various scales for any type of manufacture: from single and experimental design to small-scale and multi-product factories.
